

# ENTER FORAKER AS A CANDIDATE

Ohio Senator Will Contest With  
Taft for Support of Buck-  
eye Delegates.

## ROOSEVELT AND RATE BILL

CAUSE OF FINANCIAL PANIC LO-  
CATED.

Washington, Nov. 29.—Senator J. B. Foraker made it clearly known today that he will contest the Ohio delegation to the Republican national convention with Mr. Taft. This decision is contained in a letter to Conrad J. Matern, vice president of the Ohio Republican league, who forwarded to Mr. Foraker a copy of the resolutions adopted by the advisory and executive committees of the league endorsing Mr. Foraker for the senatorship and for the presidential nomination. He defends his course in relation to the passage of the railroad rate bill, and insists that the necessity of the railroads of the country to spend millions of dollars annually in increasing their facilities makes this a bad time to hamper the roads in any unnecessary way by legislation.

Senator Foraker says he is gratified by the endorsement of the committee at this time, because it is a flat rebuke to the suggestion that the office of United States senator is to be stripped of the real honor attached to it by making its incumbent a mere agent to register the decrees of somebody else.

Senator Foraker's Letter.

In the course of his letter, Senator Foraker says:

"I do not want to even appear to be a candidate for two offices at the same time, and therefore forego the double honor proposed and, with hearty appreciation, accept the support for the presidential candidacy which the committee have so generously tendered."

Continuing, the letter says:

"I not only stand for the broad principles involved, but also stand ready to submit to my constituents for their judgment not only my action in three instances when I was unable to agree with the president, but my entire record. I may have made mistakes, but no speech or vote or other act will be found that was not in accordance with a conscientious judgment formed by the aid of the best light at the time attainable."

"My action on the question of joint statehood and in the Brownsville matter your committees have approved, as I believe the majority of Republicans do everywhere."

Vote on the Rate Bill.

"There are doubtless very many who criticize my vote on the rate bill, but if the assurances with which my mail is filled, coming as they do from every section of the country, are not misleading, the number of these critics is rapidly diminishing."

In the debates on that measure I took pains to point out that if the government took upon itself the duty and responsibility of making rates, it would have to determine not only how much a railroad should be allowed to make, but also how much it would be allowed to spend—how much for operation, for extensions, for equipment and for every other item of necessary expenditure, all of which it is impossible for a government to do successfully and satisfactorily, and that the result would inevitably be that just at the time when a rapidly increasing business for the road was making it necessary for them to raise hundreds of millions annually for increasing their tracks, cars and general facilities, they would impair the confidence of investors in their stocks and bonds and thereby not only make it impossible for the roads to sell the addi-

tion of new equipment, but also to

maintain their existing equipment.
